“ I met Bob at a model show in Toledo. And was just getting started into building R/C ships and had No clue what I was doing. And Bob became a mentor, and showed me how to do what I was hoping to build. I lost contact with him after he moved to Virginia, and had been trying to Google search for him to let him know I had gotten back into the modeling again, and hoped to let him see how the Destroyer he had helped me start had come along. I am very saddened to learn of his passing, and my sympathies go out to his family. Bob was a great guy, and I shall always regret he didn't get to see my progress on everything he taught me . Fair winds, and calm Seas my friend.
