“ I love my daddy so much. He was an amazing dad and husband. Me and dad always joked and play argued but we enjoyed it. When my parents moved to florida and dad went into hospital may of 2018 i knew i needed to move down there and help out. I have never regretted the decision. My parents have always been there for me and my brother. Joe helped out in ways i couldnt. We was taught that family takes care of family. I am so blessed and proud that i was able to call him my daddy. My daddy is deeply loved and i cant begin to tell anyone the pain of him passing. He was so talented in anything he did. Self taught in alot of his projects- like wood working, fabricating or needing a tool he didn't own he would make it. I could go on and on but the one thing he was best at was being a husband to mom, a father to me and joe and a grandfather. He loved to cook and eat as well lol. Always find best restaurants even little dive places to eat. He taught my brother his profession and was well known and respected as mechanic. He loved to joke and play pranks. Example- i put on weight and he said i had butt the size of fifth wheel, a hollon at that.... (Truck drivers will know what im talking about) but that was me and dad, always cutting jokes. I honestly dont know how our family will recover from the loss. He will always be in our hearts and on our mind everyday. I love you daddy and i would do anything to have you here. Love your daughter, christine (your tink)
